Dale,

I would like to just take a moment and tell you how pleased I am with the professionalism of your delivery crew. Randy and David were wonderful on Friday getting the home to its location even though we had a several hour delay due to some unforeseen mud. Randy and David were both very calm, worked together, and made every effort to assure me that they would get the house to its location. Randy was back early Monday, only to be faced once again with some other mud issues. Please know that I truly believe that Randy is a true asset to your company. Randy's calm, laid back demeanor kept me calm, something that is pretty hard to do.

So far I am totally impressed.....every crew that has been on sight has worked endlessly to get the job done.

Please pass on my sincere appreciation to **all the workers** involved in this project. Without their true commitment to their jobs, things would not go as smoothly as they have.

Respectfully,

Karen M. Dupre
